

Accept a Clinician Follower

Jay-Ileen (Ai) - 2023-07-25 - Patient Guides

[How to accept a Clinician Follower](#)

To send saved readings for your clinician, you must accept your clinician's invitation to follow your progress. A request email will be sent to your registered email address. Accepted clinicians can view your data in the Welch Allyn Home Clinical Portal.

1. Log in to your registered email address.
2. Touch the **Review Request** button.
3. Touch the name of the Clinic under Pending Request.
4. Touch the **Accept Request** button to allow the clinician to view your readings or **Reject Request** to decline the invitation or postpone accepting it.

Take note, touching **Reject Request** puts the clinician follower in pending status. The option to accept the invitation is still possible.

To activate this follower at another time, please watch the tutorial video: [Activate a pending clinician follower](#)
