### CAMERA ACCESS ON MICROSOFT EDGE

#### How to enable camera and microphone access in Chrome

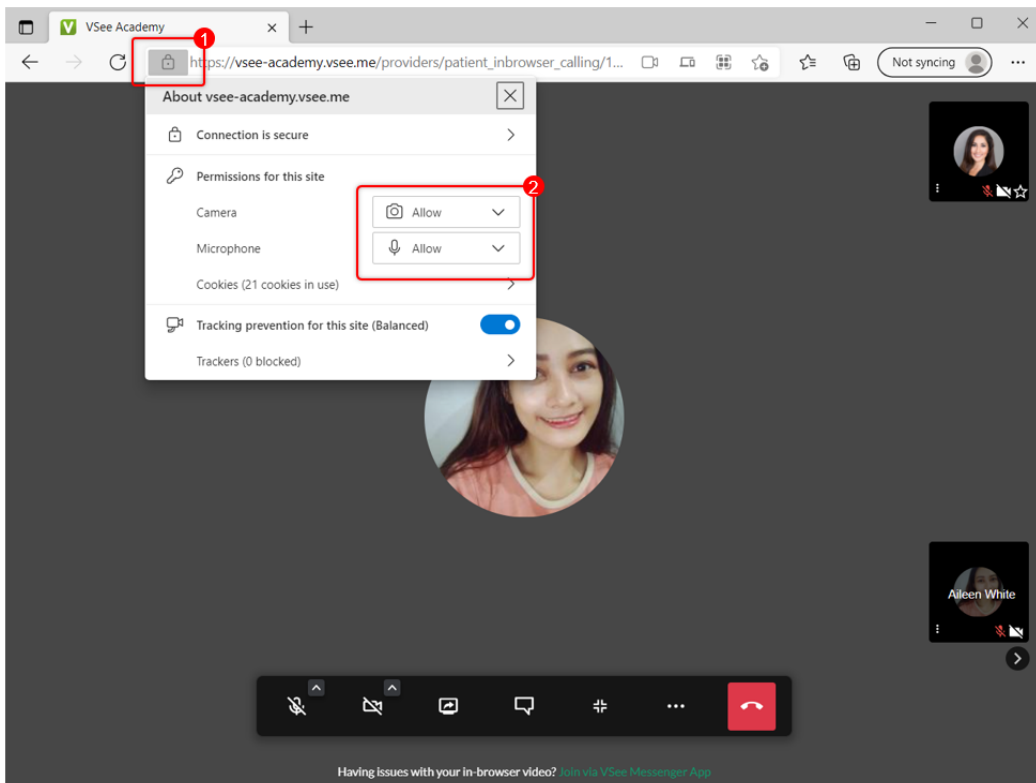

If your camera and mic are blocked in Edge, there's a few steps you'll need to take in order to re-enable them for use on a call:

Please ensure you're using the latest version of Microsoft Edge.

#### How to enable camera and mic in the browser

1. Select the lock icon located near the right side of your search bar.
2. Select the dropdown menu next to the camera and microphone. Change the camera and microphone access to **Allow**.

Refresh the browser tab (cmd + R).

You can also test your device [here](#) to ensure everything is working correctly.

If the problem persists, please contact us [here](#).
