

Clinic Admin: Manage Rooms

- 2022-04-13 - VSee Clinic for Admins

As a Clinic Admin, you can manage your waiting rooms. In this article, you will learn the following:

- [How to Create a Room](#)
- [How to Edit a Room](#)
- [How to Deactivate a Room](#)
- [How to Delete a Room](#)

Creating a Room

Go to the Admin panel (see [guide](#)).

1. Click the **Rooms** tab.
2. Then click **+ New Room** button.

Fill in the required details of your waiting room and click on the **Create** button once done.

- **Domain:** This is the clinic domain where you have admin access e.g. clinic.vsee.me . This portion is automatically filled out and not editable.
- **Slug:** Main identifier of a room and is part of the clinic web link or URL. Combining the domain and slug creates the Clinic URL in this format: <https://domain.vsee.me/u/slug> e.g. clinic.vsee.me/u/telehealth
- **Room Name:** It is the clinic display name that will appear to patients as "Welcome to [Room Name]" e.g. typing "My Clinic" will show as "Welcome to My Clinic".
- **Room Code:** This is a unique alphanumeric code that patients will use to enter

your room via the VSee Clinic mobile app. You can skip this part and a system-generated code will be created for you. This is also not editable once the room is created.

- **Assignments:** This is where you assign existing users to the room. Skip this field if you haven't created the provider accounts yet. You can assign them later.

CREATE A NEW ROOM

Room Details | Operating Hours | Visit Options | Advanced

Room Name *
e.g. UMC Medical Center

Domain *
clinic.vsee.me

Slug *
e.g. telehealth

Room Code(optional)
e.g. RoomVsee

Room Description(optional)

Assignments(optional)

Display Provider Listing
 On When turned ON, provider listing will be displayed in both the room's website and mobile app.

Available for Public Search
 On When turned ON, anyone can search for the room in VSee Clinic app and VSee.com

Cancel Create

Editing a Room

Go to the Admin panel (see [guide](#)).

Under Rooms tab and after searching the room, click on the pen icon under the 'Action' column to edit the details of the room.
