[How to edit readings](#)

On the Home Screen, you will see your most recent readings. To edit these readings:

1. Touch the desired measurement that you wish to edit.
2. Touch Log Data.
3. Touch the pen icon on the right side of the entry that you would want to edit.
Take note, you can only edit manually logged data. You cannot edit data synced from the Blood Pressure Monitor or Scale
4. Touch Update.
5. The information you edited appears in the Blood pressure or Weight list.
