

## Getting Into the Call (Old Visit Page)

- 2024-03-07 - In-Browser Calling

### Call Patient Via Web Browser

Note: Please make sure that you are using the latest **Chrome** or one version earlier on Windows or Mac.

To jump into a call with your Patient from your waiting room dashboard;

Click on the **Call** button.

You may also check first the Patient's visit details before getting into the call.

1. Click on the **Visit ID number** or the **Patient's name**.

2. Click the **video call** button on the Patient information page.

You can view the visit details under the **Intake** tab.

### Call Preference

1. Choose to **Join via Web**.

2. Check **Remember my choice**.

### Microphone and Camera Permissions

1. Click on **Continue**.

2. Click on **Allow this time** or **Allow on every visit** for VSee to access your microphone and camera.

3. Click on **I'm ready** button.

### **In the Call with the Patient**

You are now on a call with your Patient.

To view the Patient's visit details while on the call, click the **expand icon**.

*Note: The screenshots used above are taken using the new visit page version. To know how to switch to the new version, read: [Three Ways to Switch From Old to New Visit Page](#). You may also read [Getting Into the Call \(New Visit Page\)](#).*

### **Scope and Limitations**

- No live annotations during screen-sharing
- No remote control for screen sharing
- No file sharing
- Providers must call the patient from the clinic dashboard and not from the VSee Messenger notification
- Only available if your preference setting is set to **Join via web browser** or **Always ask me**
- Currently supported on mobile browsers (Safari on iOS 13 and newer, Chrome on Android)
- In-Browser call is supported only on Google Chrome, Microsoft Edge, and Safari
- Unsupported browser users will be prompted to install VSee Messenger app as an alternative to in-browser calling
