

How to Bill for Remote Patient Monitoring

Jay-Ileen (AI) - 2023-07-27 - VSee Clinic for Providers

For Patients who are under the Remote Patient Monitoring (RPM) program, you can review their health metrics without the need to have a video consultation every time.

1. Click on the **Health** tab.
2. Click on the **patient's name**.

*Note: You can also find and select the patient from the **Patients** tab.*

The screenshot displays the VSee Health interface. At the top, there is a navigation bar with tabs for Dashboard, Patients, Schedule, and Health. The Health tab is highlighted with a red box and a red circle containing the number 1. To the right of the navigation bar, there is a user profile for Dr. Sarah Miller. Below the navigation bar, there is a section titled PATIENTS. This section contains four donut charts representing risk levels for different health metrics: Blood Pressure Risk (Medium Risk, 1 patient), Blood Glucose Risk (High Risk, 1 patient), Pulse Risk (Medium Risk, 1 patient), and Blood Oxygen Risk (Normal, 1 patient). Each chart includes a legend with risk levels and their corresponding percentages. Below the charts, there is a table of patient data. The table has columns for Patient Name, Pulse, Blood Pressure, Blood Glucose, HbA1c, Blood Oxygen, Temperature, and Weight. The first row of data is for Aileen White, with a red box and a red circle containing the number 2 around her name. The table also includes an Actions column with a dropdown menu icon.

| Patient Name | Pulse | Blood Pressure | Blood Glucose | HbA1c | Blood Oxygen | Temperature | Weight | Actions |
|-----------------------|----------------------------------|--------------------------------------|------------------------------------|--------------------------------|-------------------------------|----------------------------------|---------------------------------|---------|
| Aileen White 27, F | 110 bpm a day ago 04:04 PM | 120/80 mmHg a day ago 04:02 PM | 200 mg/dL a day ago 04:02 PM | 6.4 % a day ago 04:04 PM | 95 % a day ago 04:03 PM | 98.6 °F a day ago 04:03 PM | 75 lbs a day ago 04:02 PM | ⋮ |

3. Click on the **Health** tab to view the patient's Health trackers.
4. Once you're done reviewing the patient's profile, click on the **red button** at the bottom right of the page.

A pop-up window will appear. You can see the duration of the session and have the option to add some remarks.

5. Click on **Save Session**.

You can select **Resume Viewing** to go back to continue the session. Or you can choose Discard Session to delete the time log.

6. Click on **Time Log** to view the session logs of the patient.

Note: You will see here the date and end time of the session, duration, Provider name and remarks (if there are any), and status.
