

How to Call the Patient (Plus, Premium, Enterprise)

Jay-Ileen (Ai) - 2023-04-10 - VSee Clinic for Providers

After clicking on the call button, a pop-up window will appear to inform you to give access to your camera and microphone when prompted.

1. Click **OK**.

The image shows two screenshots from the VSee Clinic interface. The top screenshot is the dashboard for Dr. Sarah Miller, showing a patient named Ben Smith with a video call button highlighted by a red box. The bottom screenshot is a black background with a white pop-up window titled 'WELCOME DR. SARA!' that prompts the user to give access to their camera and microphone, with an 'OK' button highlighted by a red box.

WELCOME DR. SARA!

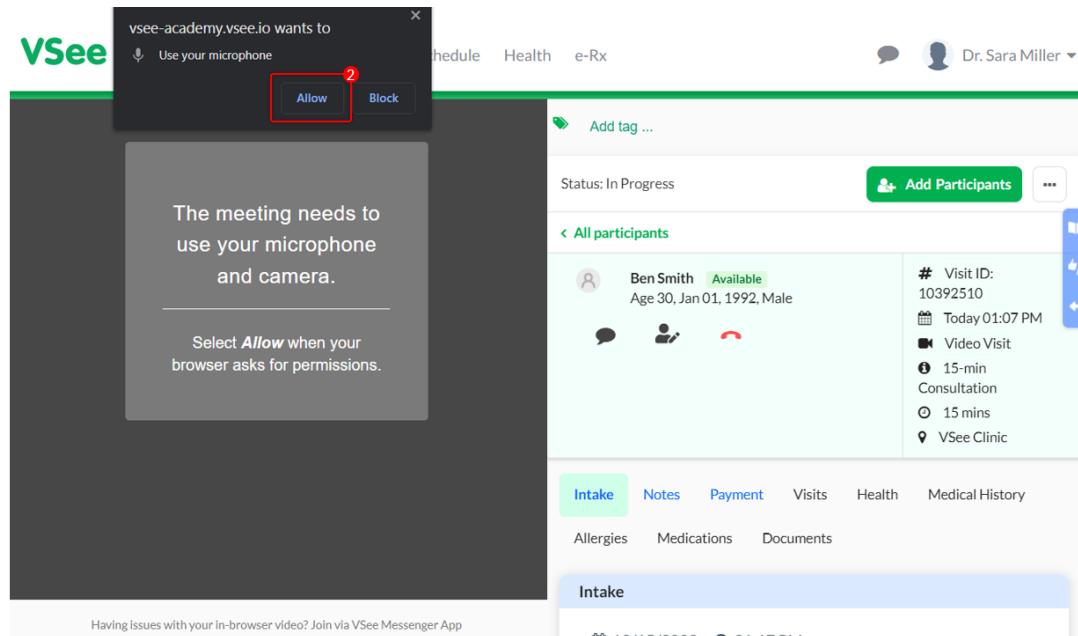

To have a video call, please give us access to your camera and microphone by clicking the button below then select **Allow** when prompted.

OK

You will see a divided view of your screen - the video window of the patient on the left and the Visit page on the right.

2. Click **Allow** for VSee to access your microphone and camera.

Note: This is a one-time setup per device. This message will only pop up the first time you will be doing a video call on a new device, and if you have not undergone the Test Device.

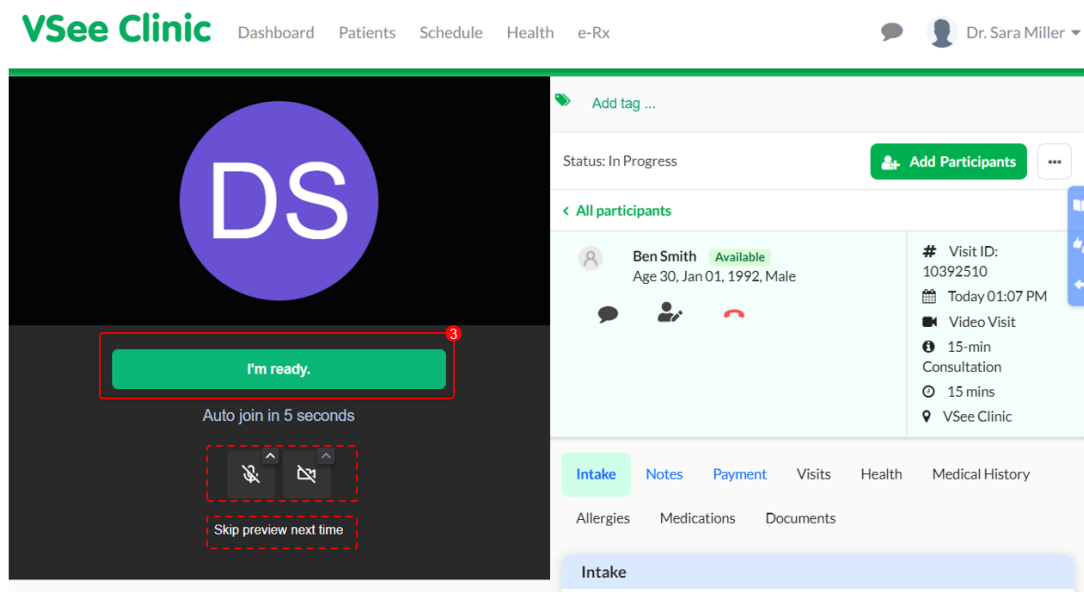

3. Click **I'm ready** to enter the Waiting Room with your patient.

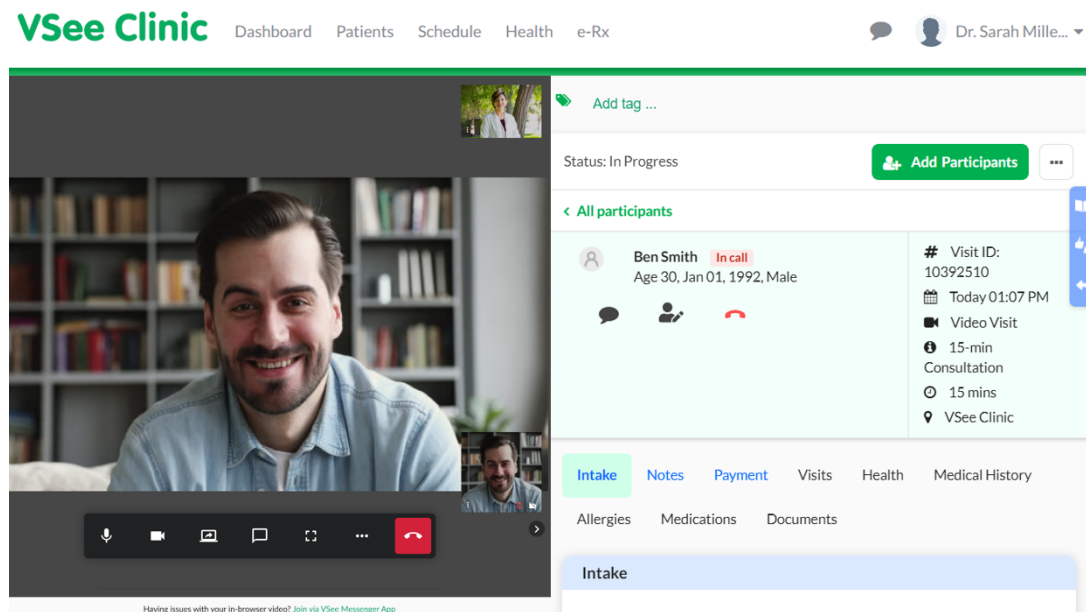

You may wait for 5 seconds to join automatically.

At this point, you may choose to turn on or off your camera and microphone.

You can also click **Skip preview next time** so you will not be prompted to click the "I'm ready" button on your next visits.

You will then be connected in the call with your patient.

Note: The screenshots used above are taken using the new visit page version. To know how to switch to the new version, read: [Three Ways to Switch From Old to New Visit Page](#).
