VSee health

How to Send Reminders

- 2023-07-12 - Scheduling

For confirmed scheduled appointments, VSee Clinic automatically sends two notifications to both provider and patient via email and/or SMS (if SMS is enabled):

- Appointment confirmation - sent right after the appointment is confirmed.

- Appointment reminder - sent 24 hours by default before the actual appointment time.

However, patients may sometimes miss an appointment due to various reasons (email went to spam, forgot the details or the notification was accidentally deleted). With this feature, a provider or clinic admin can manually re-send the appointment reminder to the same patient from the calendar or visit record.

Resend the Reminder From the Visit Details

1. From the provider dashboard, click on **Patients** tab.

2. Once the Patient tab is loaded, click on **All Visits**.

3. Search for the patient and click **View** to open the patient's upcoming visit record.

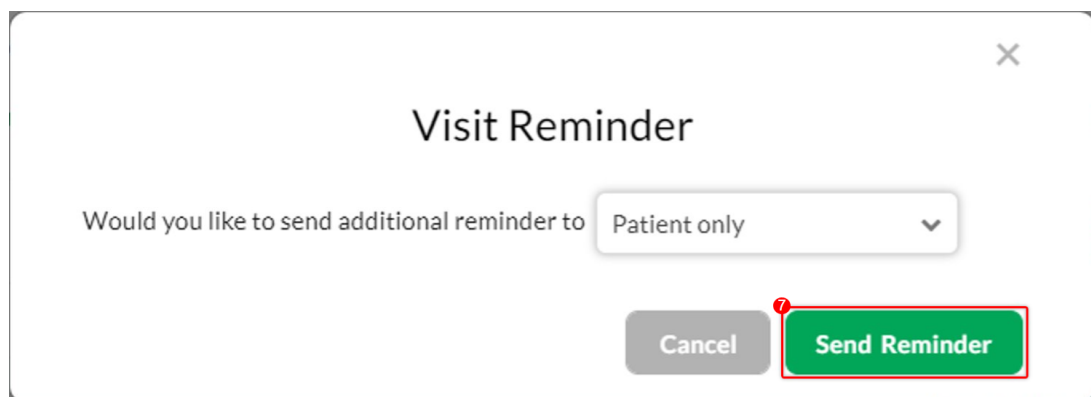

4. Click on the **ellipsis button (...)**

5. On the drop-down menu, click on **Send visit reminder**.

6. A pop-up for the Visit Reminder will appear. Select which parties will be notified by clicking the **drop-down menu**.
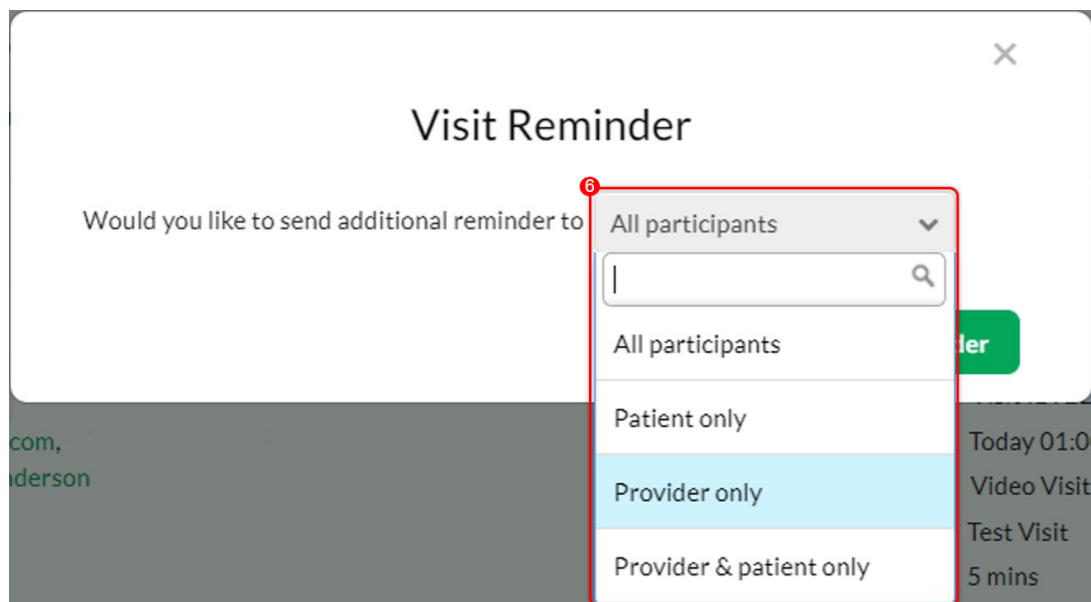

7. Once you have selected to whom you want to send the reminder (In this case, the Patient only), click **Send Reminder**.

You will receive a confirmation that the reminder had been sent. The patient will then be notified through e-mail and/or SMS depending on the provided details from the patient (e-mail and/or mobile number) when the visit was scheduled.

Reminder has been successfully sent!

Resend the Reminder From the Calendar

1. On the provider dashboard, go to the calendar by clicking on **Schedule**.

2. Click on an upcoming and confirmed appointment.

3. You will be taken to see the Visit Details. Click on the **bell icon**.

4. The confirmation to send the reminder will pop up. Select **Patient only**.
5. Click on **Send Reminder** to confirm sending.

You will receive a confirmation that the reminder had been sent. The patient will then be notified through e-mail and/or SMS depending on the provided details from the

patient (e-mail and/or mobile number) when the visit was scheduled.

Reminder has been successfully sent!
