

Managing Patient Accounts

- 2022-04-13 - VSee Clinic for Admins

Patients can either enter as guest or create their own accounts by signing up depending on the Clinic's workflow. In this article, we will be discussing about the Clinic admin's capability to manage patients, particularly the following:

- [How to Create a Patient Account](#)
- [How to Edit or Deactivate a Patient Account](#)
- [How to Delete a Patient's Account](#)

Creating a Patient Account

Go to the **Admin panel** (see [guide](#)).

1. Click **Users**.
2. Select **New Member**.

On the **Create a Member** section, fill out the specific room you want to assign the patient to. Required fields include the username which is similar to the email address (also a required information), and first and last names. The rest are optional.

Cancel **Create**

Editing and Deactivating a Patient Account

Go to the **Admin Panel** then click **Users**. Search for the patient you want to edit in the search bar then click **Edit** (pen icon) under the **Action** column.

1. To send a password reset email to the patient, go to the **Other** tab.
2. Click on the **Send Reset Password Email** button.

Deleting a Patient's Account

Note: When a patient account is deleted, all the visit records and data associated with his/her profile will also be removed and not be retrievable.

To delete a patient's account, search for the patient you want to edit in the search bar then click **Edit** (pen icon) under the **Action** column.

1. Go to the **Other** tab.
2. Click on **Disable and Remove Log In Detail**.
