

Scheduling through the Admin Panel

Jay-Ileen (Ai) - 2023-07-18 - [VSee Clinic for Admins](#)

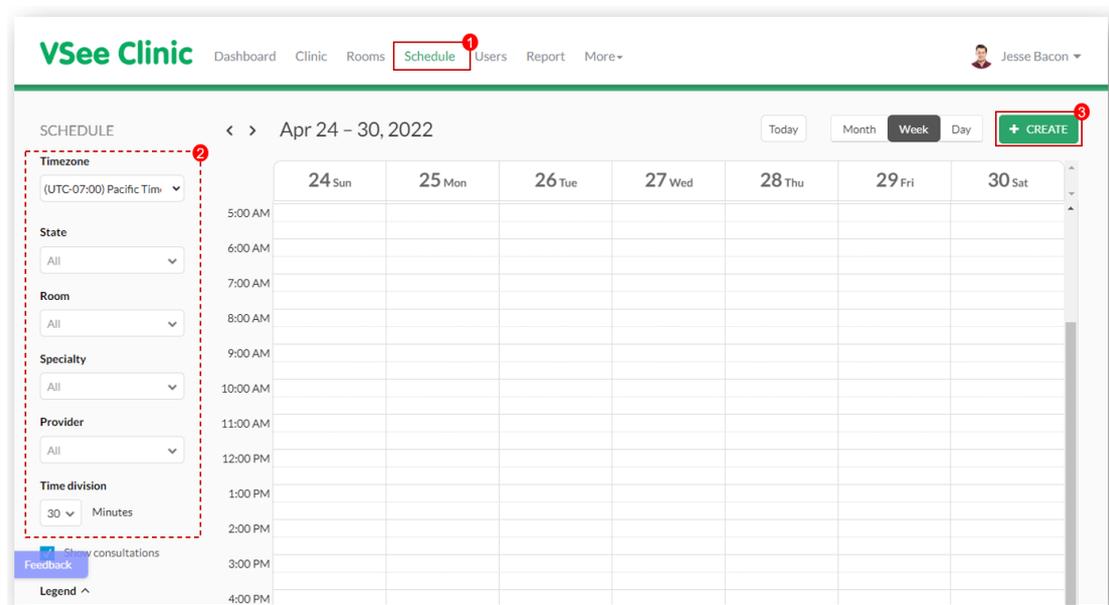

As a clinic admin, you also have the capability to set appointments with patients and open slots on behalf of the providers.

- [How to open appointment slots](#)
- [How to create a scheduled appointment](#)

Opening Appointment Slots

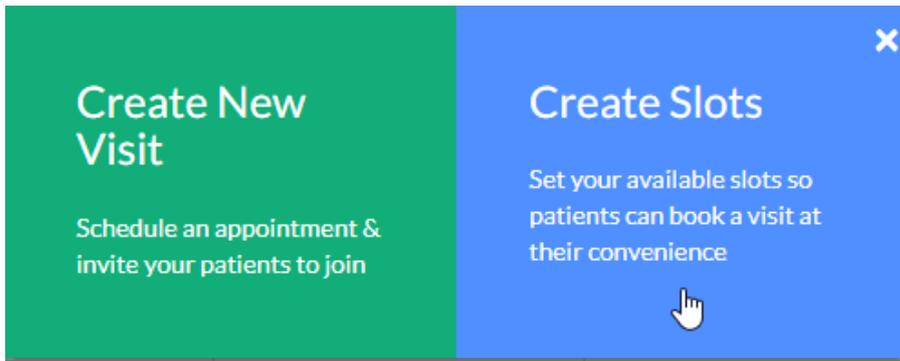

Go to the Admin panel. ([see guide](#))

1. Click on the **Schedule** tab.
2. You can filter the calendar by state, room, specialty and/or provider if you have a multi-provider. You may also edit the time division. If these are not necessary or applicable to you.
3. Proceed to click on **Create**.

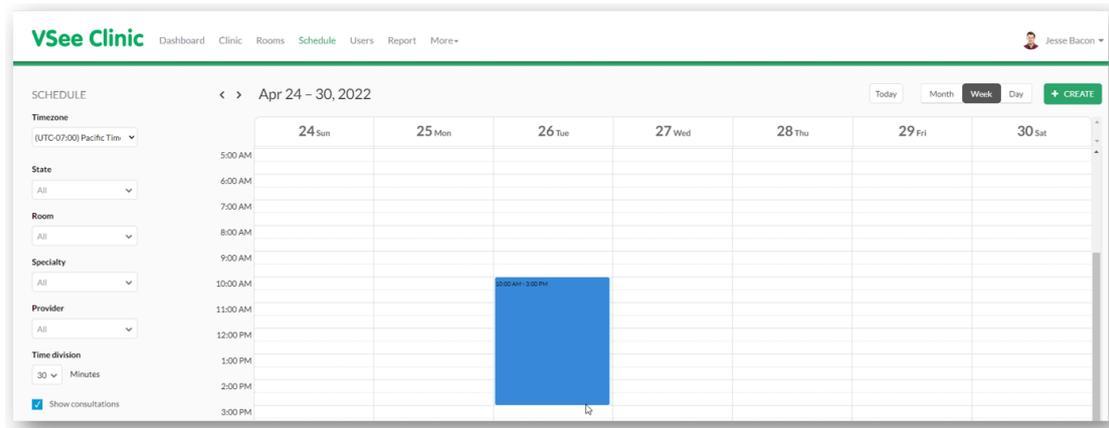

To create an appointment slot, you can:

- a) Click the green + **Create** button and choose **Create Slots**;

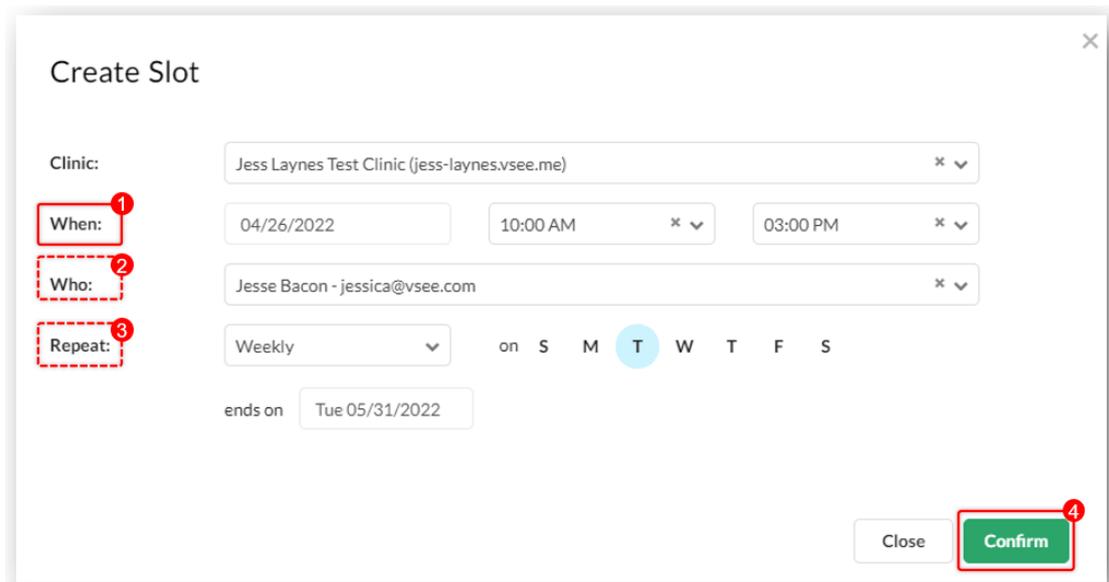

b) Another way is to click and drag the specific time on the calendar then choose **Create Slots**.

Specify the time slots and whose calendar you are setting the schedule for (if you have a multi-provider clinic). You can also opt to repeat the schedule daily, weekly, every weekday etc.

4. Click **Confirm** when done. These slots will now be visible to the patients when they book their appointments.

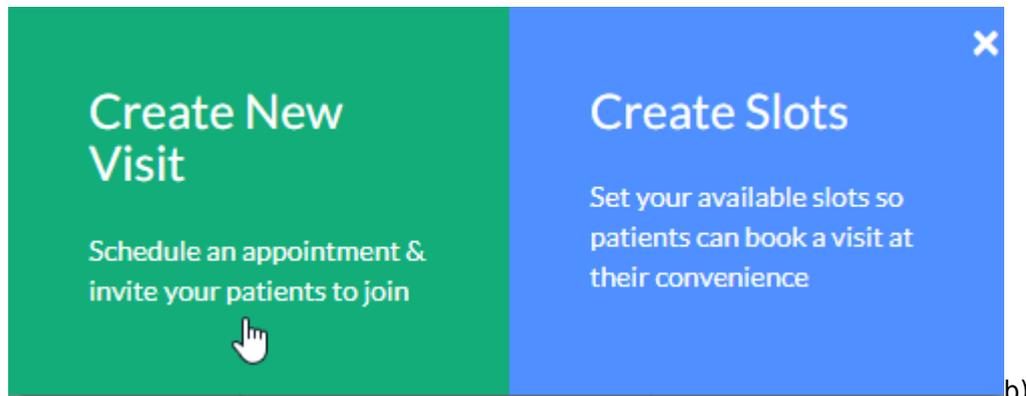

Creating a New Visit (Scheduled Appointment)

Follow steps 1 and 2 in [Opening Appointment Slots](#).

To create an appointment with a particular patient:

a) Click the green + **Create** button and choose **Create New Visit**.

Another way is to click and drag on particular time slots (as with creating new slots) and choose **Create New Visit** when the options pop up.

Fill out the required fields;

1. Input the **Visit Name**, which is already filled out by default but could be changed by clicking on **Edit** on the right corner of the field.
2. Add the time (and date).
3. Change frequency if necessary.
4. Choose the **Primary Provider** if it's a (multi-provider clinic).
5. Select the **Visit Type**.
6. Choose the **Room** (if Provider is assigned to multiple rooms).
7. Select the **Visit Option**.
8. Add the **Patient**.
9. After filling out all necessary fields, click on the **Create Visit** button.

Create New Visit ✕
