Send Files Through Chat

1. Open the VSee Messenger app and open a 1-1 or group chat.
2. Click on the **+** icon.
3. Choose **Send Images** or **Send Files**.

4. Select the file or image you would like to send. Click on **Open**.

5. You will see a preview of the file if it is an image, otherwise it will show the file name for confirmation. Press the Enter key to send the file and/or image.

Note: Alternatively, you can drag and drop an image or file into the active chat window. (Windows and MacOS)
