After the demo, and once the Clinician is ready to use the Live Clinic, provide the Setup link to the Clinic Admin -

This link allows the Clinic Admin to create and setup their own account.

After the Clinic Admin sets up their account, the clinician will receive the email to complete their profile.

The Clinic Admin should be able to login.

- The Clinic Admin continues by setting their account password and checking the agree and consent checkboxes.
- Clinic Admin logs in and goes to set up the final clinic step.
