

## State and Specialty Mapping

### State Mapping

For clinics that serve the multi-states area of America, State mapping is essential so that providers can attend to patients according to the states that are only allowed for their license.

During the intake process, patients can select the state they are located and if there are multiple time zones in that state, they can also select their actual timezone; the same process goes for Clinic Schedulers.

Visit Option Intake - 60 Minutes    Name of Service Outpatient Appointment    Location Texas

Timezone --    Date and Time --    Provider Name --

Location Step 2 of 4

Arizona	Arkansas	Florida	Georgia	Idaho	Illinois
Kentucky	Maine	Maryland	Missouri	New Mexico	
North Carolina	Ohio	Oklahoma	Pennsylvania	South Carolina	
Tennessee	Texas	Virginia	Washington

### Specialty Mapping

Patients can choose their preferred provider according to their specialties. The Providers' specialties will reflect on the landing page of the clinic.

Once the patient selects the Provider by clicking on their name, they will be able to view the Provider's profile and can book an appointment with that chosen provider.
