

The New Visit Page

Jay-Ileen (Ai) - 2024-03-19 - VSee Clinic for Providers

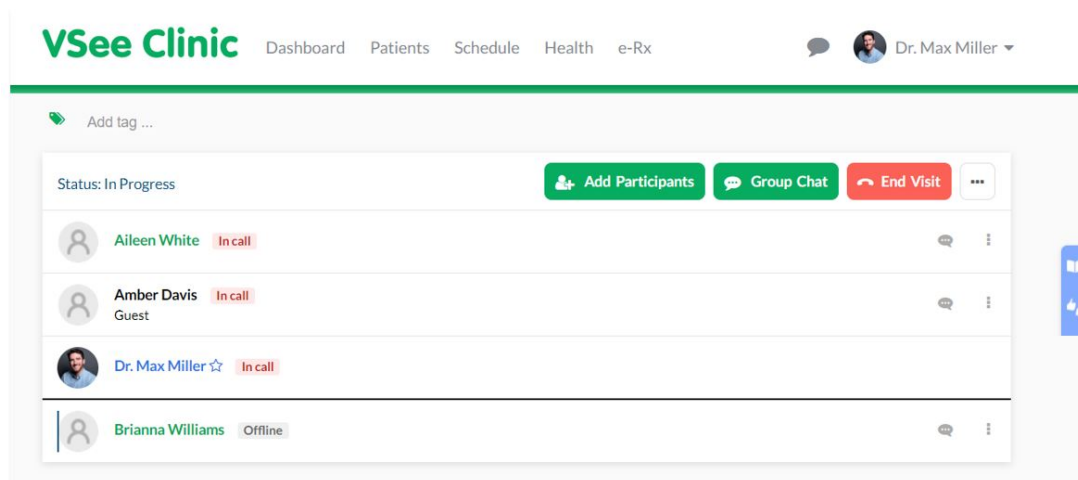

The new Visit page feature allows your remote care team to manage patient queues, coordinate internally, and run visits more smoothly and effectively with an updated VSee Clinic User Interface (UI). Here's what's in this new version:

Participant List

All participants of the meeting are now listed:

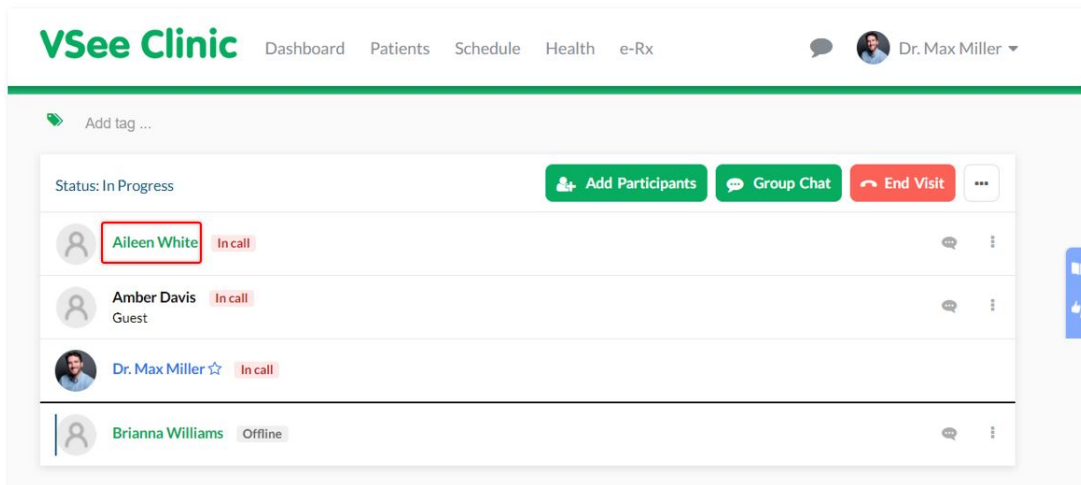

- Provider (blue)
- Patient (green)
- Guests (black)

The black line separates those currently in the call and those who have left or not yet joined.

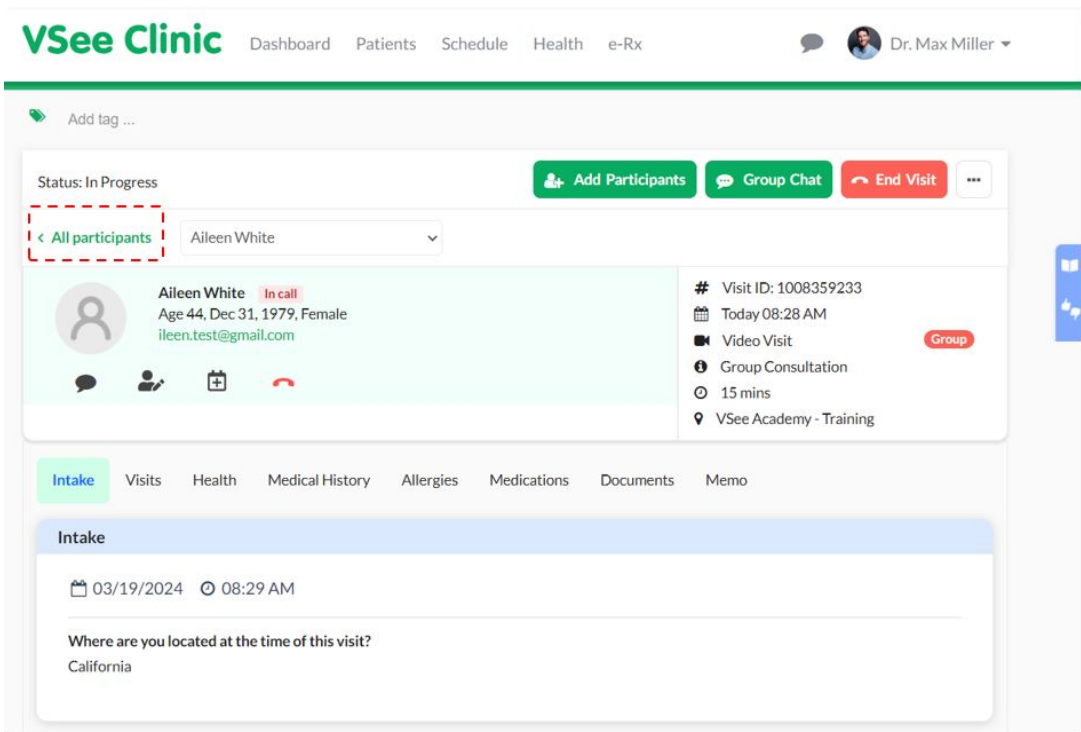

Open Patient Chart

Click on a **patient's name** to view their patient details page.

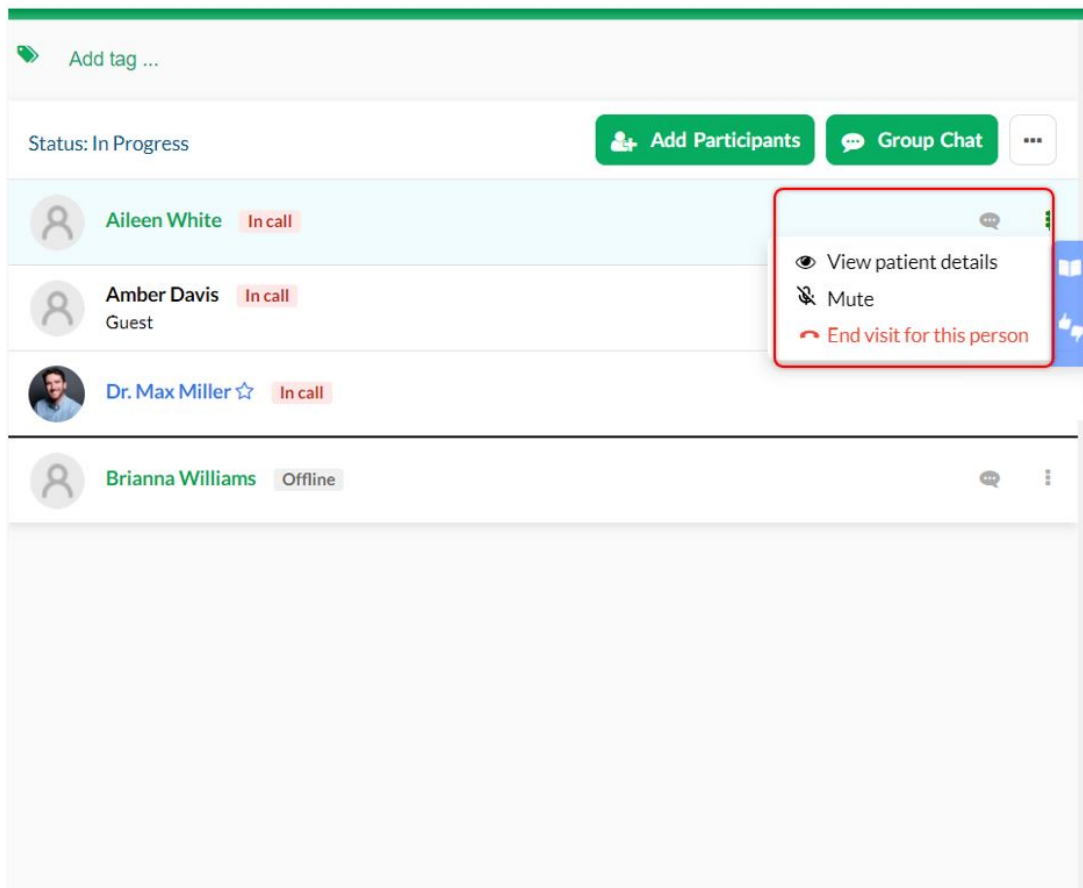

From the Patient Details page, click **All Participants** to return to the participant list.

Participant Controls

As a meeting host, you can send a chat, remotely mute, or remove a patient or guest from the call.

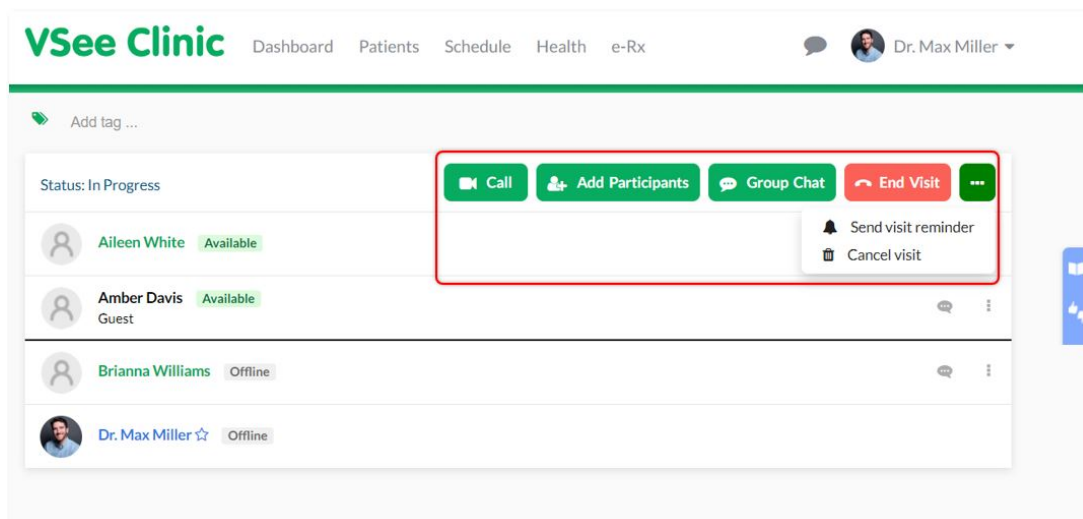

Meeting-related Controls

Call, Add Participants (Invite Guest), and other meeting-related controls are grouped on top.

Invite Guest

1. To send the Guest Invite Link, click on **Add Participants**.
2. Click **Copy Invitation** and send to the guests the guest invite link and the Dial in number and PIN.

You can also enter the email address and phone number of the guests and click **Send Invitation**.

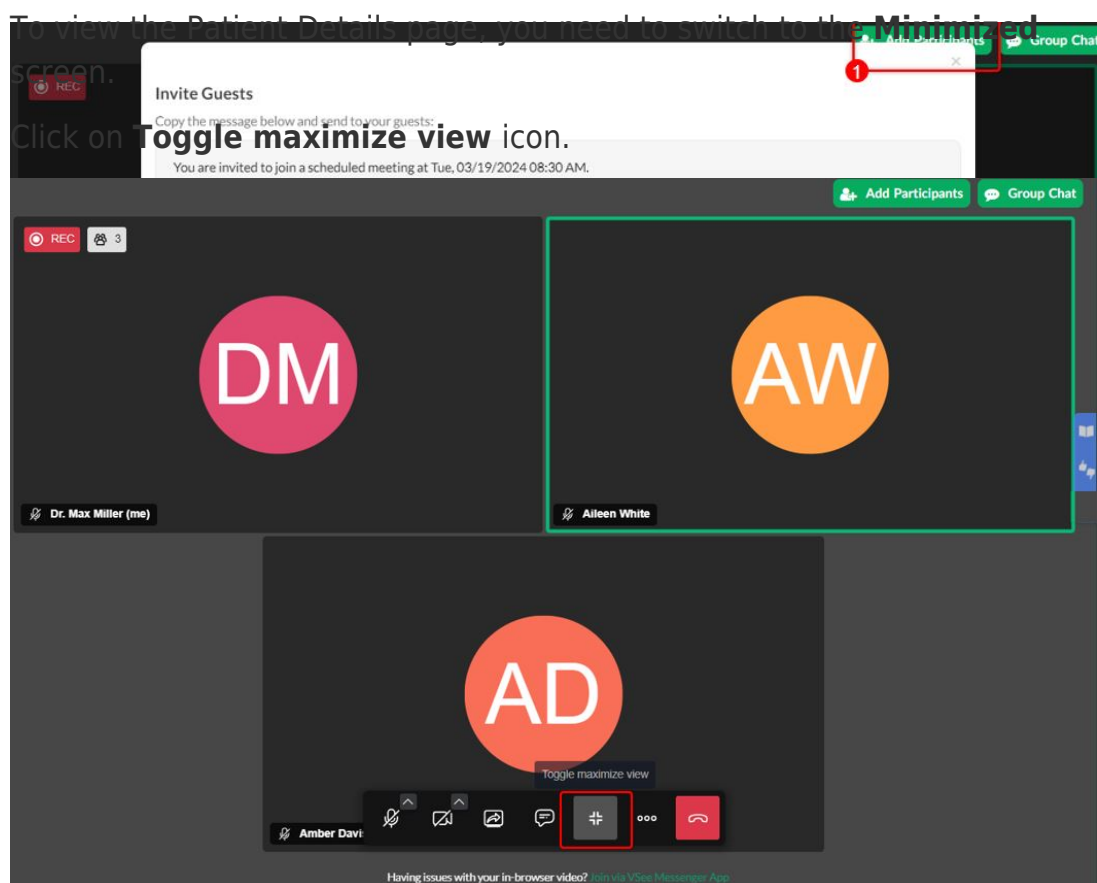

The screenshot displays the VSee Clinic interface during a visit. At the top, the navigation bar includes 'VSee Clinic', 'Dashboard', 'Patients', 'Schedule', 'Health', and 'e-Rx'. The user profile 'Dr. Max Miller' is visible in the top right. Below the navigation bar, there is an 'Add tag ...' field. The main content area shows a list of participants with their status:

- Status: In Progress
- Aileen White (Available)
- Amber Davis (Guest, Available)
- Brianna Williams (Offline)
- Dr. Max Miller (Offline)

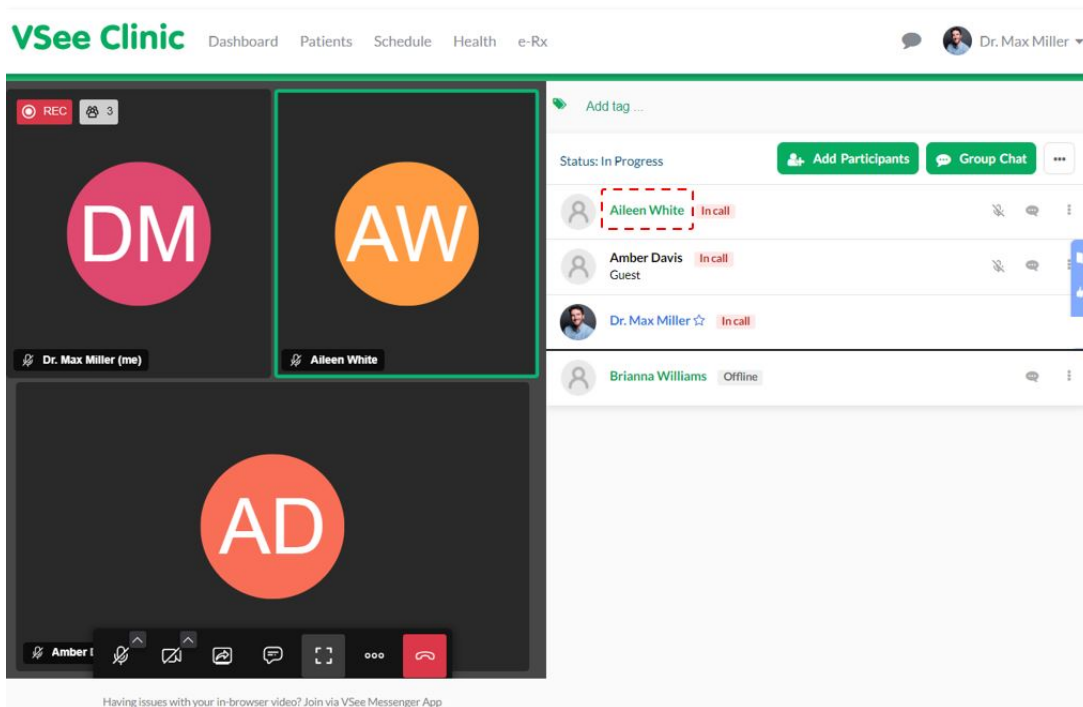

A red box highlights a set of action buttons: 'Call', 'Add Participants', 'Group Chat', 'End Visit', and a three-dot menu. A dropdown menu is open from the three-dot menu, showing 'Send visit reminder' and 'Cancel visit' options.

During the Call

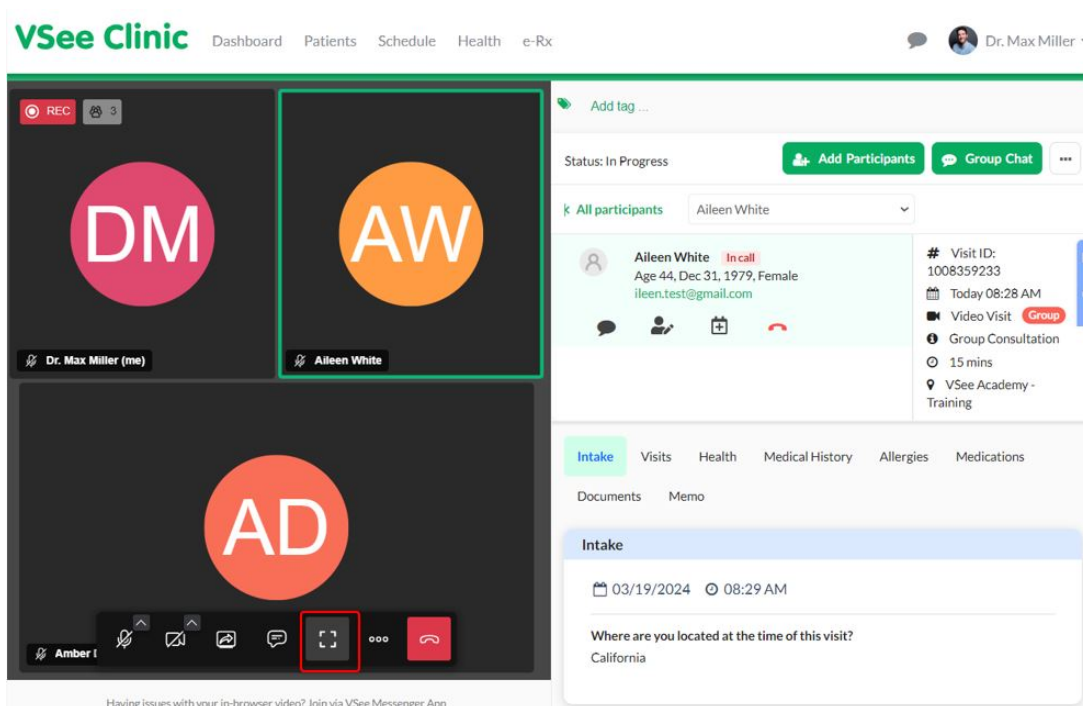

When you get into the call, the default view is **Maximized** screen.

If you are in a group call, click on the patient name whom you want to view the visit details page with.

Click on the same icon to return to the default Maximized view.

Tagging

Tagging is now supported for both one-on-one and group calls.

For the SOAP Notes, which is current we optimized the layout to save you from endless scrolling when the chart gets long. Simply scroll down / up to toggle the 2 views.

Note: some features may not be available on your clinic. Please inquire our sales support for more information.

End Visit

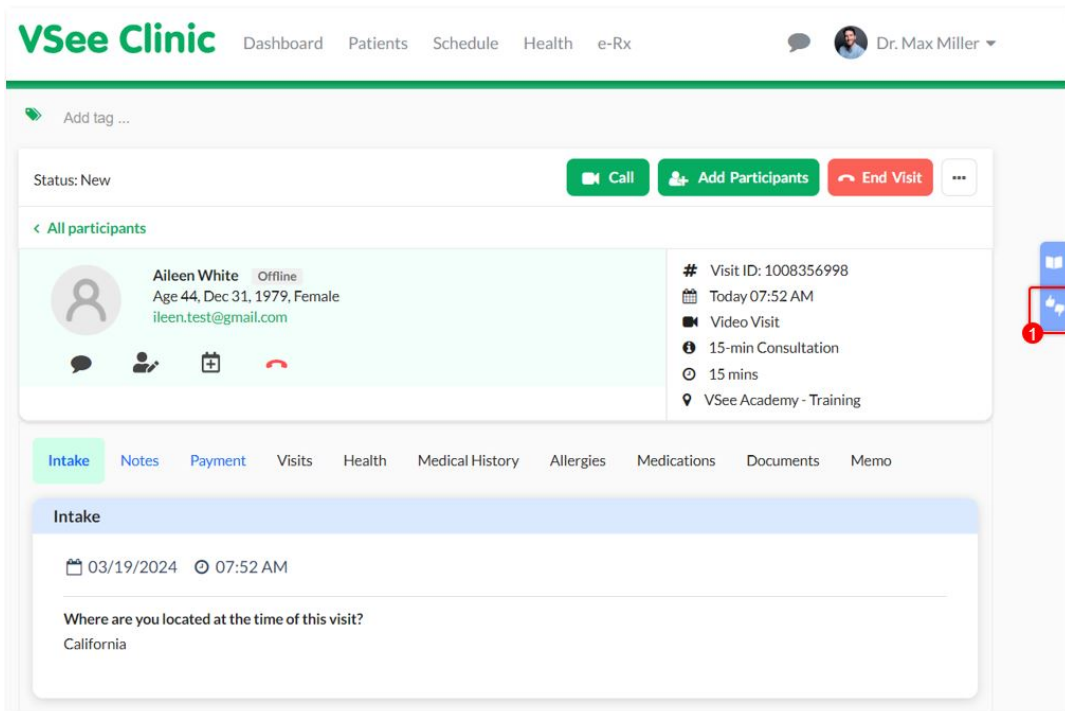

More intuitive hang-up to support your different workflows.

1. Click on the **red phone** icon.
2. Select **End Visit for All** to end the call for everyone and complete the visit. Select **Leave only** if another Clinic staff will call the patient.

Send Feedback

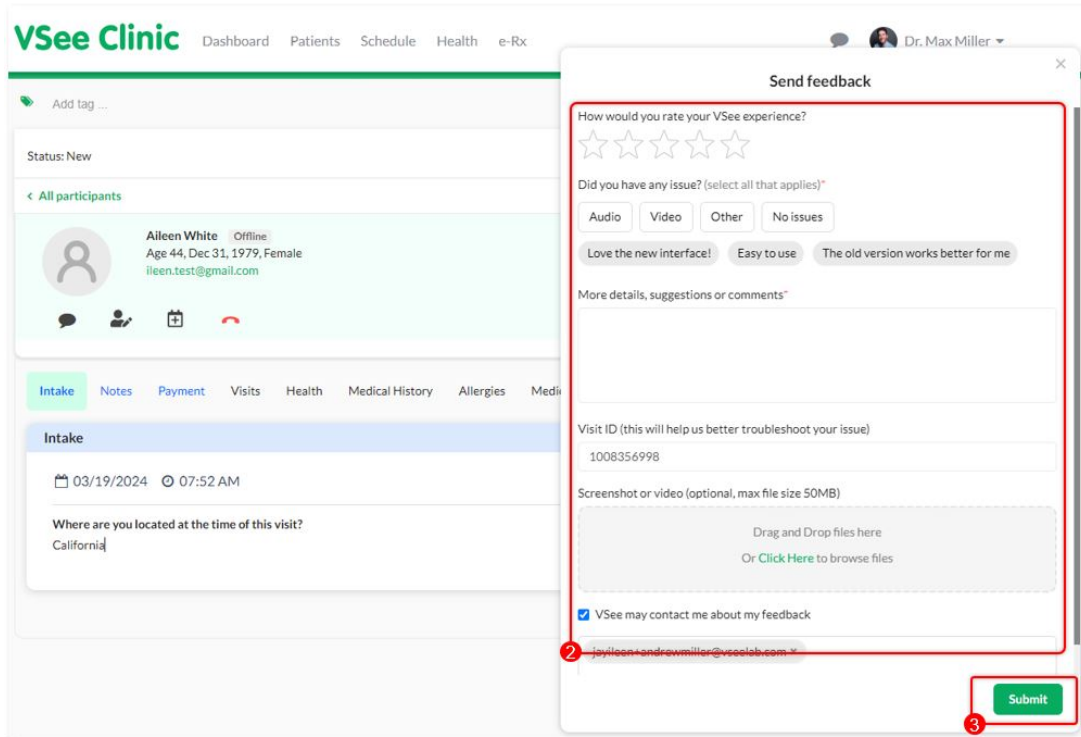

1. To send Feedback, click the **blue bar** icon on the right. Click on the **thumbs-up/down** icon.

2. Add your VSee experience rating, type of issue, more details/suggestions/comments, Visit ID number, screenshot, or video.

*Note: Leave the checkbox for **VSee may contact me about my feedback** if you want to be contacted by our support team.*

3. Click on **Submit**.
