The Problem List tab Jay-Ileen (Ai) - 2024-07-10 - VSee Clinic for Providers

For Clinics that use the Notes feature and track patient diagnosis (ICD-10 codes), the Problem list tab can be enabled to keep all past diagnoses of each patient's visits.

*Note: Please reach out to your Account Manager if you'd like to enable this feature in your Clinic.* 

How to Use the Problem List tab

1. Hover on the patient's window and click the **Minimize** icon from the menu tray.

The Visit Details page will appear on the right side of the screen.

1. Click on the **Problem List** tab.

## Open prob1-20240710-025124.JPG

1. Click on **+New Diagnosis** button.

## **Detailed Diagnosis Information:**

- **Diagnosis:** Clear and concise descriptions of each diagnosed condition will be listed, providing an accurate medical history.
- **Start Date:** The date when the diagnosis was first made, helping track the progression and duration of conditions.
- **End Date:** If applicable, the date when the diagnosis was resolved or ended, offering a complete picture of your health over time.
- Status: This allows providers to select the current status of each diagnosis. This helps to keep your medical record up-to-date and indicates which conditions are Active, which have been Resolved, and which are Inactive but still relevant to your medical history.
- **Optional Notes Section:** An optional notes section allows providers to include any extra details or relevant information about each diagnosis, supporting a more personalized and comprehensive approach to your care.

Note: Whenever a Provider adds a diagnosis in the SOAP notes during a visit, the Start Date is also marked. This is triggered when the provider **signs and sends the notes**.

Need more assistance? Send us an email at <u>help@vsee.com</u> or check out the <u>Help</u> section under the Profile Menu of your VSee Clinic.
