"VSee quit unexpectedly" on Mac

- 2023-07-20 - Common Errors and Other Issues

If you are seeing this error when launching VSee Messenger on your Mac, please follow the instructions below.

1. Open the Finder.

2. Press **⌘-Shift-G**.

3. Enter **~/Library/Application Support/** into the box that appears, and press Enter.

4. Drag the VSee folder in the window that appears into your trash.

5. Launch VSee. It should work now!
