

## What is Patient Queue Auto-Sorting

Jay-Ileen (AI) - 2024-05-20 - VSee Clinic for Providers

VSee Clinic now has the Waiting Room Dashboard Sorting that allows the Provider or Clinic staff to sort the ongoing visits of the Clinic.

There are two ways to sort the visit:

1. Wait Time
2. Triage Condition

### Sorting by Wait Time

From the Waiting room Dashboard, you can choose to sort the visit by **Oldest to Newest** or by **Newest to Oldest**.

The screenshot displays the VSee Clinic interface. At the top, there are navigation tabs for 'Dashboard', 'Patients', and 'Schedule', along with a user profile for 'Dr. Sarah Bays'. Below the navigation, there are buttons for 'Call Selected', 'Invite Patient', and 'Schedule'. The main area shows a list of patients ready for visits. Two patients are visible: Brianna Williams (Emergent (Critical)) and Aileen White (Urgent (Moderate)). A dropdown menu is open over the 'Oldest' sorting option, showing 'Oldest -> Newest' (selected) and 'Newest -> Oldest'. Below the patient list, there are sections for 'Getting Ready (0)', 'In Progress (0)', and 'Recent (0)'. On the right side, there are reminder cards for Amber Davis and Brianna Williams.

*Note: Currently, Sorting by Wait Time is enabled by phases for most The Patient Queue Auto-Sorting (based on wait time) will be enabled on the Waiting Room Dashboard in phases starting on the day of the release and will be fully enabled by the next release — VC 6.0.1.*
