VSee Clinic - System Adjustment for Visits with In-Progress Status

2020-08-24 - - VSee Clinic

Please be informed that the status of some visits across all clinics have been and will be adjusted automatically by VSee system starting 21st Aug 2020.

Background

The visits included on the Statistics Dashboard are visits with **Completed** status.

The screenshot shows the VSee Clinic Dashboard. The 'Dashboard' tab is selected and circled in red. The interface includes a navigation bar with links to Clinic, Rooms, Schedule, Users, Report, Record, and Developers. Below the navigation bar, there are filters for 'Report data' (set to 'Live'), 'Select Waiting Room', and a date range (17 AUG 2020 - 23 AUG 2020). The 'Clinic Portal' section displays two tables: 'Providers' and 'Rooms'. Both tables show visit statistics for the selected date range.

Providers						
#	Provider	Visit	Call	%	Duration	Amount paid
1	An Runscope Provider	305	-	-	-	-
2	Marven Camagay	4	3	75%	14m	-
3	McLloyd Uyanguren	3	3	100%	5m	-
4	Kyle Lucido	3	3	100%	48m	-
5	Joy Cabrera	2	2	100%	1m	-

Rooms						
#	Room	Visit	Call	%	Duration	Amount paid
1	An's Waiting Room	305	-	-	-	-
2	Marven Camagay	4	3	75%	14m	-
3	McLloyd Waiting Room	3	3	100%	5m	-
4	Kyle Lucido's Clinic	3	3	100%	48m	-
5	Joy Cabrera's Clinic	2	2	100%	1m	-

In some clinics, a large number of visits that already ended still have **In-Progress** status which may due to one of the following reasons:

- The provider did not check out the patient right away.
- The provider may have directly called from VSee Messenger instead from the Clinic dashboard.
- The provider may have already navigated away from the clinic when the "Checkout Patient" popup window was displayed.

Intake Date: 08/16/2020 01:58 AM

Notes

Adjustments Done

The status of all clinic visits that follow the criteria below will be changed from **In-Progress** to **Completed** starting 21st Aug 2020.

- Visit start date is July 1, 2020 and onwards.
- Visit call duration is > 60 seconds.
- Visit status is "In-Progress" after 5 hours since start time.

How It Might Affect You

If you have Clinic Admin access to your clinic, this means you can view the Statistics Dashboard. There is a chance that your clinic's total number of visits have increased. The adjusted visits will appear as completed by "System User". Please note that there will be no change in the Reports view and during export.
