## VSee Clinic 6.3 - Enhanced Group Chat Controls and New Visit View Filter

2024-10-29 - Jay-Ileen (Ai) - VSee Clinic

VSee Clinic 6.3 launches on October 21! This update includes bug fixes and UI enhancements and functionality to improve your overall experience.

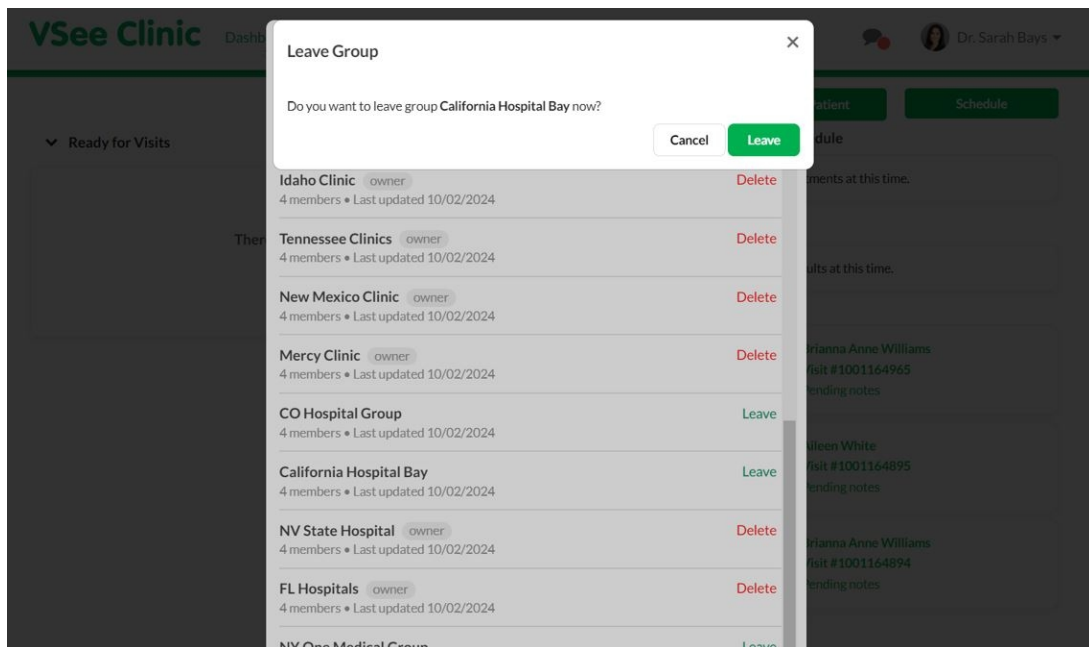

### Improved Group Chat Management

For Clinics that utilize the Chats page, you will receive notifications when you need to manage your group chats.

Now, you have more options to decide which group chats to keep, archive, hide, delete.

For detailed steps on managing group chats on the VSee Clinic, check out our new KB article [here](#).

*Note: Please contact your Account Manager if you'd like to enable this feature in your Clinic.*

### Filter Visit Views by Clinic

For Providers who see patients from multiple Clinics, you can now conveniently see which

Clinic your patient visit came in from. You can also now filter your Visits by Clinic.

Under the “All Visits” tab you will now see a new column — Clinic. When you select the “Display from all my clinics” option on your Profile Menu, this column will show the name of the Clinic from which the visit was made. When you select the “Display from this clinic only” option, only the visits from the selected clinic will be listed; visit information of patients from other clinics will not appear.

Read more on how to switch your All Visits view [here](#).

The screenshot shows the VSee Clinic dashboard. At the top, there's a navigation bar with 'Dashboard', 'Patients', 'Schedule', 'Health', and 'e-Rx' (with a notification badge). The user is logged in as 'Dr. Sarah Bays'. Below the navigation bar, there's a 'Patients' section with tabs for 'Patients' and 'All Visits'. The 'All Visits' tab is active. Below the tabs, there's a filter section with 'Day', 'Week', 'Month', and 'Custom' buttons. The 'Month' button is selected. To the right of these buttons are navigation arrows and a date selector showing 'This Month' and 'Sep 2024'. Below the filter section, there's a 'Show 25 entries' dropdown. The main table displays visit information with columns: Visit Time, Patient, Waiting Room, Clinic, Provider, Gender, Age, and Er. Two rows of visit data are visible. A dropdown menu is open over the 'Clinic' column, showing 'VSee Academy' for both visits. On the right side, there's a profile menu for 'Dr. Sarah Bays' with options: 'My Account', 'My Clinic', 'Admin Panel', and 'Display patients'. The 'Display patients' section has two radio buttons: 'From this clinic only' (unselected) and 'From all my clinics' (selected). Below this, there's a list of VSee Clinic links: 'team.vsee.io', 'jayleen.vsee.io', 'chi.vsee.io', and 'erx.vsee.io'.

## Clinic Performance Enhancement

Also, more website optimization has been done for VSee Clinic to reduce load time and increase performance.
