VSee Clinic 6.3 - Enhanced Group Chat Controls and New Visit View Filter

2024-10-29 - Jay-Ileen (Ai) - [VSee Clinic](#)

VSee Clinic 6.3 launches on October 21! This update includes bug fixes and UI enhancements and functionality to improve your overall experience.

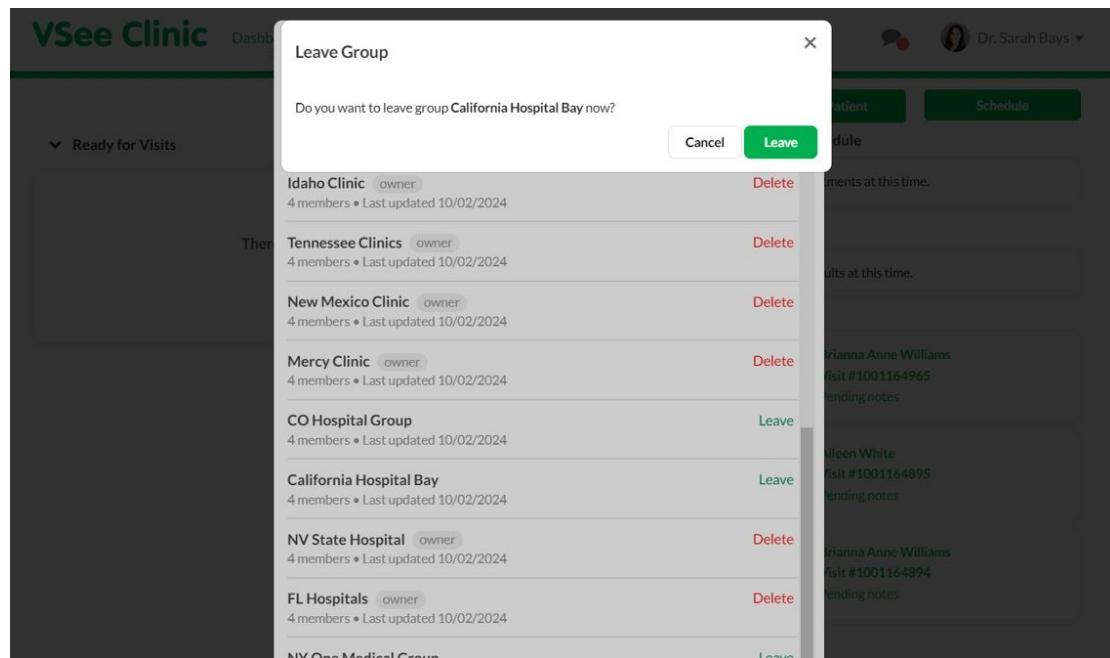

Improved Group Chat Management

For Clinics that utilize the Chats page, you will receive notifications when you need to manage your group chats.

Now, you have more options to decide which group chats to keep, archive, hide, delete.

For detailed steps on managing group chats on the VSee Clinic, check out our new KB article [here](#).

Note: Please contact your Account Manager if you'd like to enable this feature in your Clinic.

Filter Visit Views by Clinic

For Providers who see patients from multiple Clinics, you can now conveniently see which Clinic your patient visit came in from. You can also now filter your Visits by Clinic.

Under the “All Visits” tab you will now see a new column — Clinic. When you select the “Display from all my clinics” option on your Profile Menu, this column will show the name of the Clinic from which the visit was made. When you select the “Display from this clinic only” option, only the visits from the selected clinic will be listed; visit information of patients from other clinics will not appear.

Read more on how to switch your All Visits view [here](#).

The screenshot shows the VSee Clinic software interface. At the top, there is a navigation bar with links for Dashboard, Patients, Schedule, Health, e-Rx (4 notifications), a message icon, and a user profile for Dr. Sarah Bays. Below the navigation bar, there are two tabs: 'Patients' and 'All Visits', with 'All Visits' being the active tab. Under the 'All Visits' tab, there is a date selector with options for Day, Week, Month, and Custom, and a date range from 'This Month' to 'Sep 2024'. Below the date selector, there is a dropdown menu to 'Show 25 entries'. The main content area displays a table of patient visits. The columns in the table are: Visit Time, Patient, Waiting Room, Clinic, Provider, Gender, Age, and Er. The first visit listed is for Brianna Anne Williams on 09/20/2024 at 02:13 AM, with the provider being Dr. Sarah Bays, M.D. The second visit listed is for Aileen White on 09/20/2024 at 12:35 AM, with the provider being Dr. Sarah Bays, M.D. To the right of the table, a dropdown menu is open, showing options for 'My Account', 'My Clinic', 'Admin Panel', 'Display patients', and 'From this clinic only' or 'From all my clinics'. Below the dropdown, there is a list of clinics with their names and URLs: 'VSee Clinic team.vsee.io', 'VSee Clinic jayileen.vsee.io', 'VSee Clinic chi.vsee.io', and 'VSee Clinic erx.vsee.io'.

Visit Time	Patient	Waiting Room	Clinic	Provider	Gender	Age	Er
09/20/2024 02:13 AM ID: 1001164965	Brianna Anne Williams	VSee Clinic	VSee Academy	Dr. Sarah Bays, M.D.	Male	32	bri
09/20/2024 12:35 AM ID: 1001164895	Aileen White	VSee Clinic	VSee Academy	Dr. Sarah Bays, M.D.	Female	28	ilee

Clinic Performance Enhancement

Also, more website optimization has been done for VSee Clinic to reduce load time and increase performance.
