VC 7.0 New AI Virtual Scribe and Charting Tools for Faster Documentation

2025-03-25 - Jay-Ileen (Ai) - VSee Clinic

We're excited to announce the release of VSee Clinic 7.0 on March 24, with powerful new features to enhance efficiency and improve patient care.

- New! AI Virtual Scribe for Automated SOAP Notes
- Re-use Notes from Previous Visits for Faster Documentation
- Co-Sign Notes - Streamline Collaboration

Automate Your Documentation with our New AI Virtual Scribe

Introducing the AI Virtual Scribe, designed to streamline your documentation process by converting call recordings into structured, concise notes—with minimal effort on your part. Your AI Virtual Scribe can:

- easily access recorded conversations for reference
- automatically transcribe your recorded calls for detailed documentation
- generate a structured summary in SOAP notes format

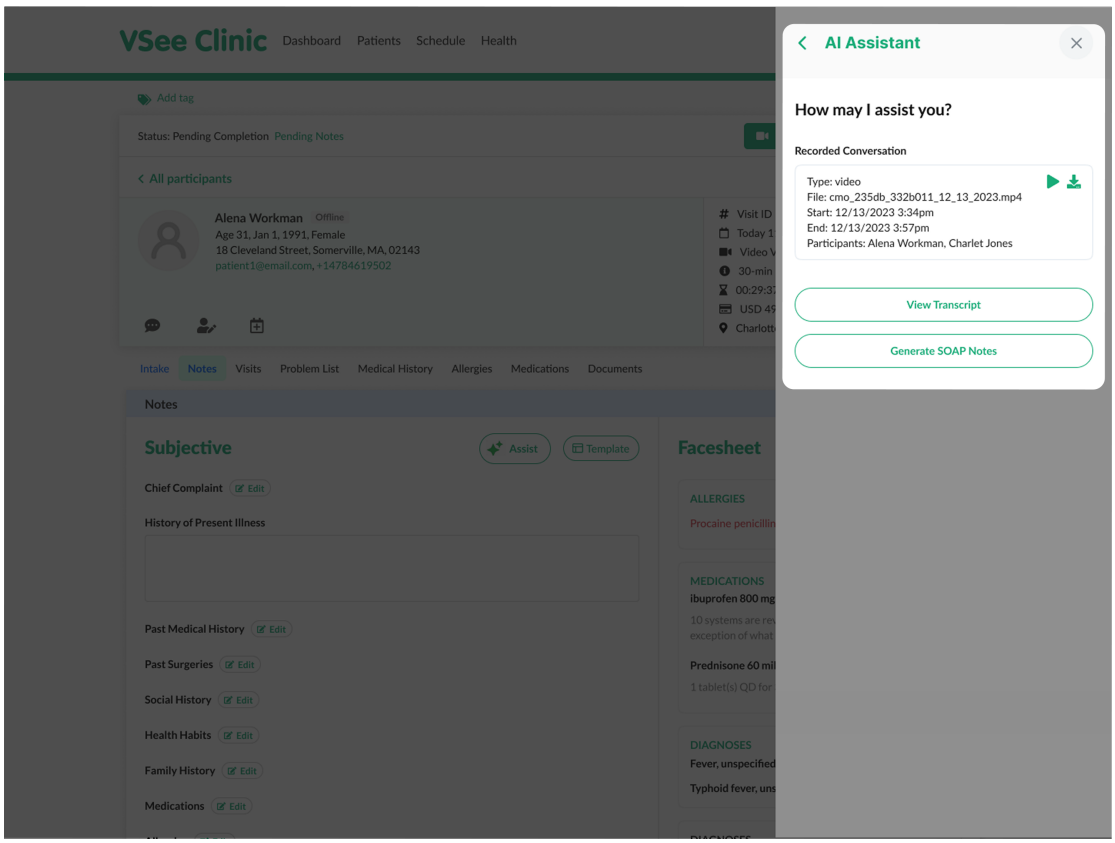

With the VSee Clinic AI Virtual Scribe, you can increase your productivity and regain the time you normally spend on documentation.

Learn more about how the AI Virtual Scribe feature works [here].

Reach out to your Account Manager or a Support Specialist today to enable the AI Virtual Scribe in your Clinic!

Increase Efficiency — Directly Re-use Notes from Previous Visits

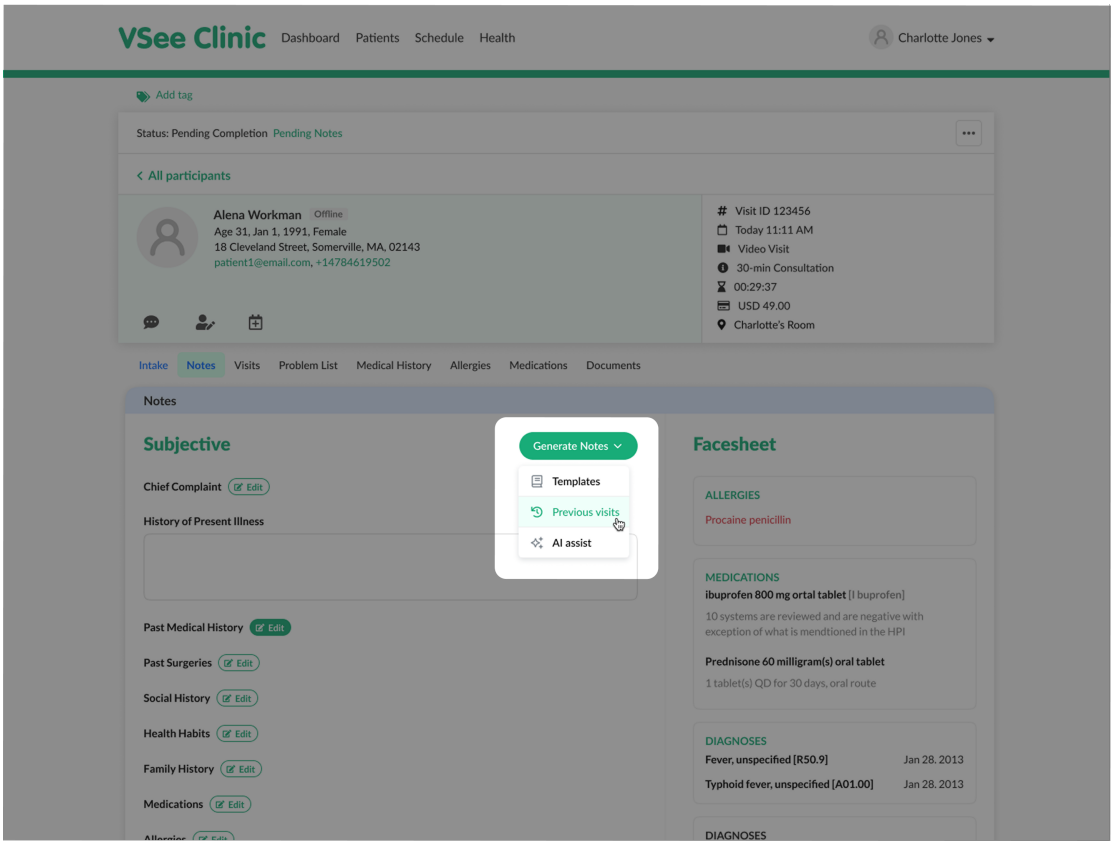

Another new feature we've added to speed up your documentation is the ability to reuse your notes from past visits. Instead of starting from scratch, you can now effortlessly pull notes from prior visits, reducing time spent on recalling and repeating similar notes. This feature ensures that historical information is at your fingertips when you need them.

Read more about how to pull in notes from previous visits [here].

Note: Please reach out to your Account Manager if you'd like to enable this feature in your Clinic.

Collaborate Seamlessly with Notes Co-sign

Collaboration just got easier! The co-signing feature enables seamless review and approval of notes by supervisors or attending physicians, ensuring compliance and accuracy in documentation.

Read more about how to use the Co-sign feature [here].

Note: Please reach out to your Account Manager if you'd like to enable this feature in your Clinic.
