VSee Messenger 4.19.1 - Screenshare Toolbar Now Movable

2023-09-28 - Jay-Ileen (Ai) - VSee Messenger

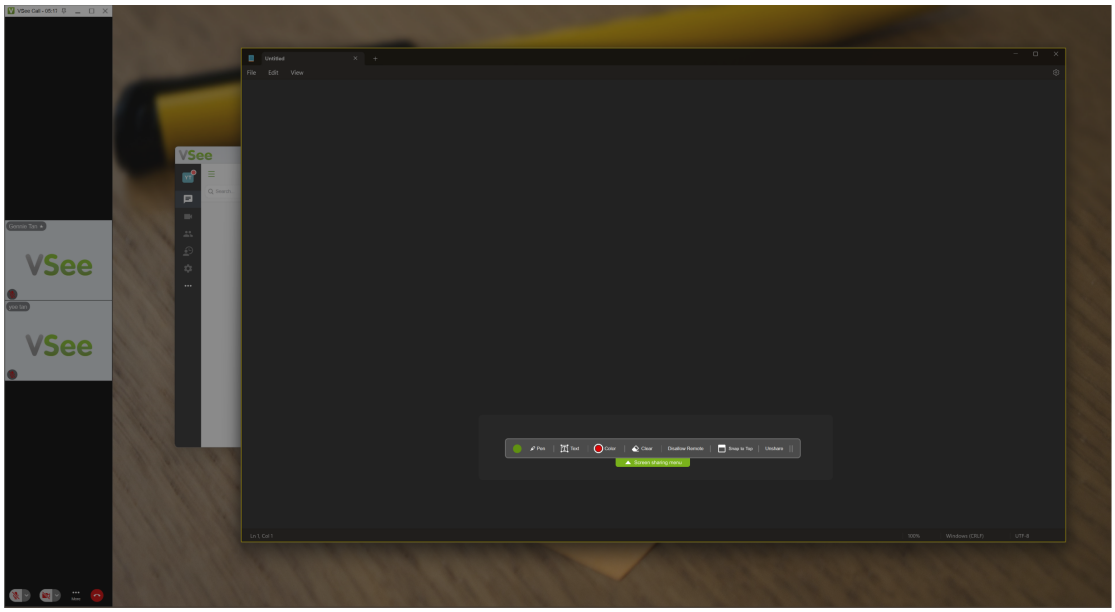

Your feedback and suggestions have been invaluable to us, and we've been hard at work making your VSee Messenger experience more customizable and user-friendly. We are excited to announce that the Screenshare toolbar on Windows will be fully movable starting Sept. 29.

What does this mean for you?

Before, the Screenshare toolbar was always fixed at the top of the shared screen window, often covering other browser tabs users wanted to click.

With our new movable Screenshare toolbar, you now have the power to position and drag it wherever it suits you best. You will also be able to collapse the toolbar to minimize the space it takes up. So whether you prefer your toolbar at the top, bottom, side, or even right on top of the active shared window, you now have complete control over the toolbar placement.

To learn more about the Screenshare toolbar improvement, click here.

Upgrade to the latest version today.

If you have any questions or have encountered any issues related to this release, please contact us at help@vsee.com.

Best regards,

VSee Customer Success
