VSee Messenger 4.21.2 - Incoming Call Notifications for iOS Devices

2024-05-27 - Jay-Ileen (Ai) - VSee Messenger

On May 27, VSee Messenger will release a new update for iOS users to have a more integrated and user-friendly calling experience.

Stop Missing Calls with Our Latest iOS Update

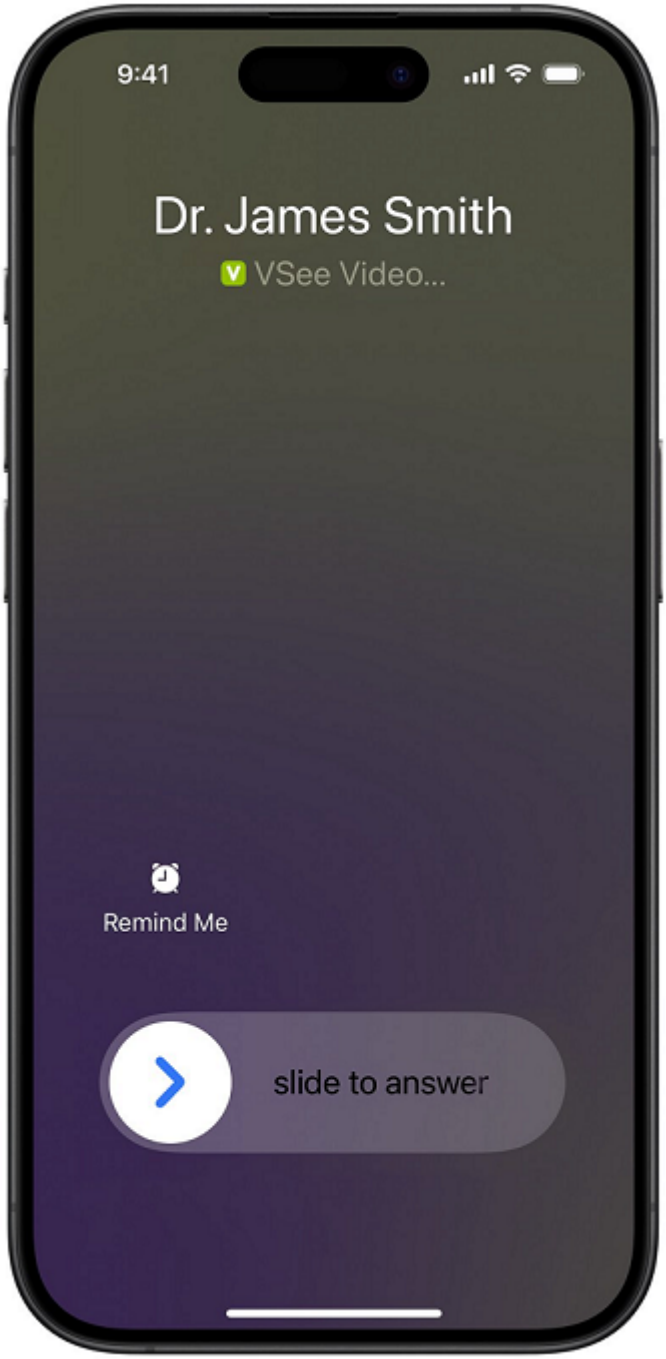

Bid farewell to missed calls! With our integration of Apple's iOS CallKit, your VSee Messenger (VM) app now behaves like a regular phone call. Whether your device is locked or in use, your phone will now display incoming VM calls with VSee id, giving you more control over how you manage your calls and ensuring you never miss an important conversation.

4.21.2 will be released in two phases by platform:

- May 20: Windows, macOS, and Android versions of VSee Messenger

- May 27: iOS version of VSee Messenger

This update is just one of the many ways we're committed to enhancing your communication experience.

Upgrade to the latest version of VSee Messenger here on the day of the release to ensure you get the best experience.
