VM 4.29: New Edit Sent Messages, Reply in Thread, Bookmark Key Info Copy link

2026-09-29 - Francis - VSee Messenger

Care team communication moves fast. With the upcoming release of **VSee Messenger 4.29** (available **September 24**), we're introducing new controls to keep your conversations accurate, organized, and searchable.

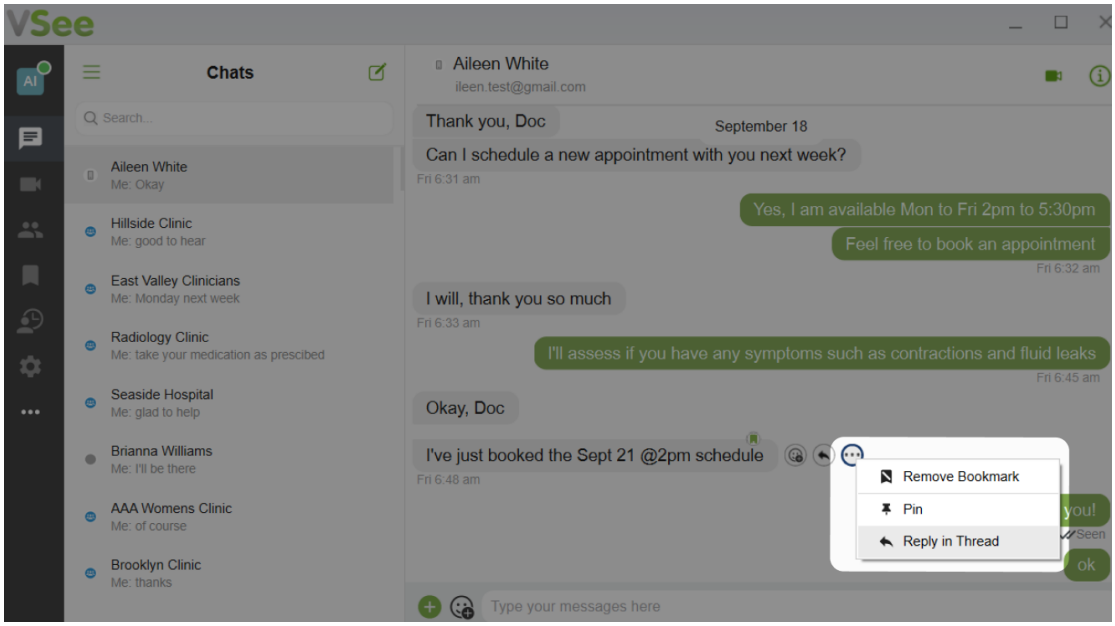

Correct mistakes or clarify details immediately without sending follow-up messages or cluttering the conversation thread.

- **Quick In-Line Edits:** To edit a message, hover over the text line, click the ellipsis (...) icon, and select "Edit."
- **Transparent & Auditable:** Edited messages display a clear (Edited) indicator directly below the message text for full team clarity.

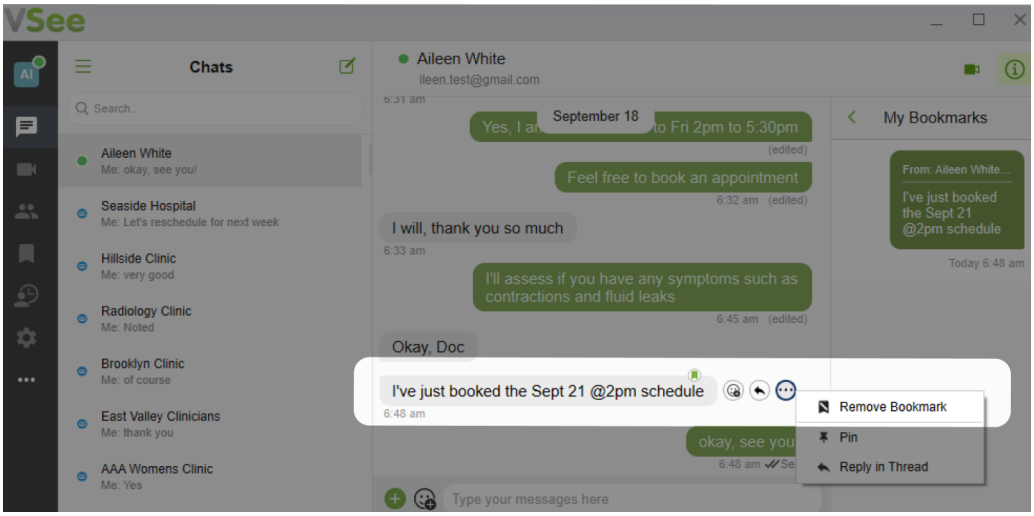

Keep side conversations from burying the main discussion. Reply directly to any message to start a thread, and follow-up context stays organized

and easy to find — without cluttering the main channel.

Never lose track of important patient notes, meeting links, or critical directives in long chat threads.

- **1-Click Bookmark:** Save any message directly to your personal bookmark drawer across mobile and desktop.
- **Jump to Context:** Open your bookmarks to review saved items and click **"Go to Bookmark"** to jump straight back to the original conversation context.
- **Filter by Chat:** View all saved items in one central tab or isolate bookmarks specific to an active conversation via the chat info panel.

Make sure to upgrade to the latest version on the day of the release.
