VSee Clinic 4.7.0 – Group Appointments, Full Screen Video, Instant Multiple Device Connection

2021-05-18 - Mark - VSee Clinic

VSee Clinic 4.7.0 Release – Group Appointments, Full Screen Video, Instant Multiple Device Connection

Check out these new features and improvements:

- New! Go full screen in your 1-1 web-based calls
- New! Group appointments, faster scheduling, and more
- Improved remote patient monitoring (RPM): New data views, instant multiple device connection
- Improved Basic VSee Clinic: Manage subscriptions in new billing tab

Review the details below:

1. New Full Screen Layout for 1-1 Web-Based Calling

Get a more immersive experience so you can talk to patients as though face-to-face without losing the convenience of having your notes right on the screen. For those providers doing web-based video calls, you now have the same option as VSee Messenger to go full screen or to view your video side-by-side with the patient profile.
