VSee Clinic 6.1 - New EMR Features for More Efficient Documentation

2024-07-15 - Jay-Ileen (Ai) - [VSee Clinic](#)

We are excited to announce that, starting July 15, we will be rolling out several new Electronic Medical Record (EMR) features that will streamline your charting and enhance your overall experience.

- Updated: SOAP Notes with Prompts
- Updated: Organize Your Visit Notes Templates
- NEW! Patient Problem List at a Glance

Updated: SOAP Notes with Prompts

No matter how many times you've done it, starting from a blank note takes extra work. That's why we've revamped our SOAP notes to provide greater structure and helpful prompts under each section. This makes it possible for clinicians to document faster, clearer, and more concisely with less effort.

For users who already have the **SOAP Notes** feature enabled, these enhancements will be available under the existing "Notes" tab.

Note: Please reach out to your Account Manager if you'd like to enable this feature in your Clinic.

Updated: Organize Your Visit Notes Templates

Reusable visit notes are a great way to save Providers documentation time and effort. But what happens when you have so many saved visit notes templates you don't know what to do? VSee EMR now provides a way for Providers to better manage their library of templates with the ability to tag, categorize, search, filter, and even clone other Providers' templates. (Individual Providers have the option of making their templates public to other Providers, as long as they belong to the same Clinic).

Templates can save time, ensure that documentation is consistent across all providers and visits, and enhance the overall quality and reliability of your patient records.

Note: Please reach out to your Account Manager if you'd like to enable this feature in your Clinic.

Read more about How to Use Reusable Visit Notes Templates [here](#).

 Open notea1.JPG

This screenshot shows a patient profile for Brianna Williams. The top navigation bar includes 'Dashboard', 'Patients', 'Schedule', 'Health', and a user icon for 'Dr. Sarah Bays'. The patient's status is 'Pending Completion' (Non-urgent (Minor)). The profile card displays the patient's name, age (32), address (7650 AVALON, LOS ANGELES, CA, 90003), and email (brianna.williams.forever@gmail.com). It also shows a 'Video Visit' record with a visit ID (1001052500), date (Mon, 07/08/2024 02:39 PM), duration (00:09:15), and provider (VSee Clinic). Below the profile are tabs for 'Intake', 'Notes' (selected), 'Payment', 'Visits', 'Problem list', 'Health', 'Medical History', 'Allergies', 'Medications', 'Documents', and 'Memo'. The 'Notes' section is expanded, showing 'Subjective' and 'Chief Complaint' (with an 'Edit' button). A 'Template' button is visible in the top right of the notes area.

This screenshot shows the 'Template' creation interface. On the left, a preview of the patient profile is shown with a 'No data' message. The right side is a 'Create a new template' form. It includes a 'Template name' field (with a placeholder 'Template name'), a 'Share with entire clinic' checkbox, a 'Category' section (with a 'Select Category' dropdown and a list of categories: Chief Complaint, History of Present Illness, Review of System, Physical Exam, Assessment, Procedure Code(s), and Plan/Care Instructions), and a 'Submit' button. A 'New Template' button is also visible at the top of the preview area.

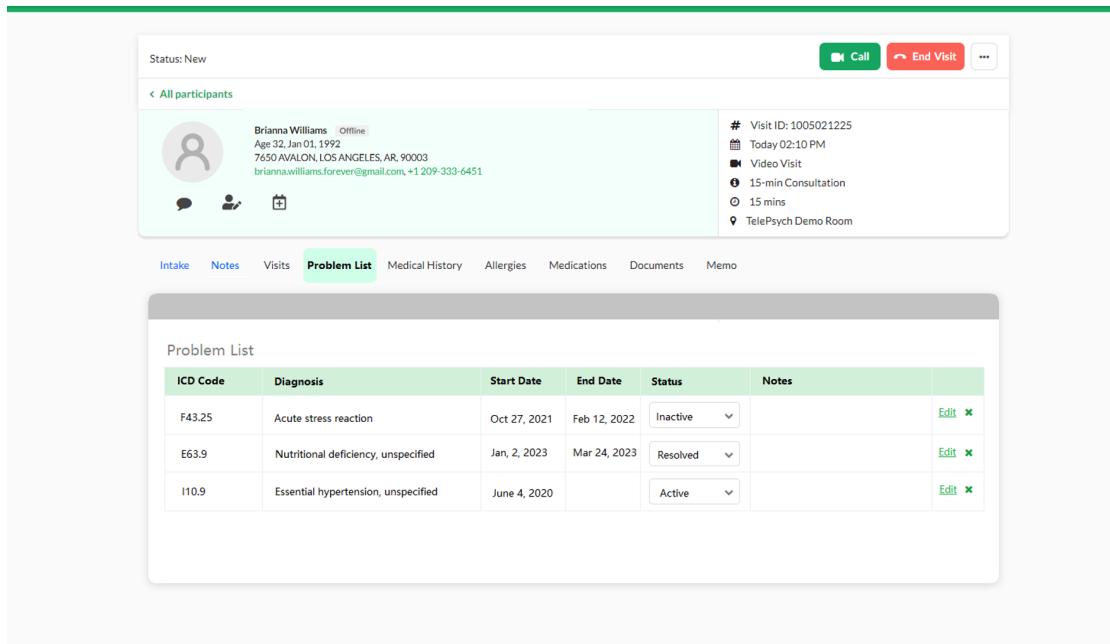

NEW! Patient Problem List at a Glance

Want to get a quick bird's eye view of all your patient's past diagnoses and medical issues? We now have the **Problem List** tab. This new tab helps you track a patient's past diagnoses and concurrent diagnoses by providing at a glance the ICD code, condition or morbidity, start date, and status of each diagnosis.

With easily accessible and up-to-date information, your clinicians can make better informed decisions.

Note: Please reach out to your Account Manager if you'd like to enable this feature in your Clinic.

Read more about the Problem List [here](#).

The screenshot shows the VSee Clinic software interface. At the top, there is a header with the clinic name, navigation links for Dashboard, Patients, and Schedule, and a user profile for Amy Davis. Below the header is a participant list for a video visit. The participant, Brianna Williams, is listed as Offline, with details: Age 32, Jan 01, 1992, 7650 AVALON, LOS ANGELES, CA, 90003, brianna.williams.forever@gmail.com, +1 209-333-6451. To the right of the participant details are visit statistics: Visit ID: 1005021225, Today 02:10 PM, Video Visit, 15-min Consultation, 15 mins, and TelePsych Demo Room. Below the participant list is a navigation bar with links: Intake, Notes, Visits, Problem List (which is highlighted in green), Medical History, Allergies, Medications, Documents, and Memo. The main content area is titled "Problem List" and contains a table with three rows of data. The table columns are: ICD Code, Diagnosis, Start Date, End Date, Status, and Notes. The data is as follows:

ICD Code	Diagnosis	Start Date	End Date	Status	Notes
F43.25	Acute stress reaction	Oct 27, 2021	Feb 12, 2022	Inactive	Edit 
E63.9	Nutritional deficiency, unspecified	Jan, 2, 2023	Mar 24, 2023	Resolved	Edit 
I10.9	Essential hypertension, unspecified	June 4, 2020		Active	Edit
