VSee Clinic 4.6.0 – Faster Scheduling

2021-03-15 - Patty - VSee Clinic

Check out these new calendar features to save you oodles of clicks for improved work efficiency. Plus we've got a new UI to make it easier to do what you need to do. Here are some highlights:

- Send guest invites via email or SMS in one click
- Set a new default number of appointment reminders (guests automatically get reminders now, too!)
- Directly add new Visit Options (e.g. 15-minute consult, New Patient consult.) from an appointment

Review the details below:

1. New Calendar and Scheduling User Interface

When you "Create A New Visit", you now have a bunch of new options to make scheduling that much easier, including the ability to:

- Choose from more recurring appointment settings.
- Directly send guest invites via email or SMS.
- Change the number of automatic appointment reminders to send or set a new default for appointment reminders.
- Create new Visit Options (initial visit, follow-up consult, etc.) directly from appointment settings.
